

IPR001

BASIC INFORMATION

IPR001 is drawn like stationary with lifting around axis fixation. The uplift is secured by rectilinear fluid motor. The hand hydraulic pump or hydraulic pump drive by electric motor AC 230V/50Hz or AC 3x 380V/50Hz, where pump ensure supply of compressive oil.

IPR001 is irreplaceable in using in industry, energeticks, in supermarkets and stores at unloading materials by help of technique from loading capacity of trucks.

TECHNICAL DATA IPR001

Technical data like: proportions and capacity weight, high lifting, make are dependent on options of clients.
